# BENEFITS

## BENEFITS

### → MAXIMIZE EQUIPMENT UPTIME

- Prevention of unplanned furnace failure & of lost production time
- Scheduled preventive maintenance made easy (available with service plan)
- Elimination of non-conformance reports
- Higher degree of process certainty

### → COST CERTAINTY OVER A 2 TO 5-YEAR BASIS

- Low monthly subscription rate
- Replacement of high capital investment costs & reduction of the financial impact
- Decreased total cost of ownership

### → GREATER DATA COMPATIBILITY

- Document support, traveler, supplier audits

### → LOW IMPACT ON THE ENVIRONMENT

- Probes, meters & controllers are sustainable products

### DID YOU KNOW?

Our A<sup>2</sup> probe, Waukee Flo-Meter, and Valve-Tronic Plus flow controller are sustainable products. In fact, 60% of the probe's parts and 80% of the meter's/controller's parts are recyclable and given a second life.

Removed components under our sustainability program are tested, verified, and returned for further use.

By recycling content, we are committed to limiting our carbon footprint, resource consumption, and waste.

## QUALITY ASSURANCE COMPLIANCE

- ISO/IEC 17025 calibration
- All materials are calibrated & certified to meet industry standards
  - AS 9001
  - ISO 9001
  - CQI-9
  - NADCAP
  - TS 16949
- Environmentally sustainable products

## HaaS SOLUTION

# HOW DOES IT WORK?

### HOW DOES IT WORK?

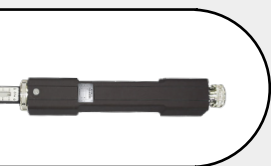

Our technical support team will tailor a HaaS solution to address your project and operational requirements, ensuring efficiency in delivering solutions consistently on time as you need them, when you need them.

#### 1. PICK A PRODUCT

##### A. PROBE

- A<sup>2</sup> with alloy or ceramic sheath (models A2-6-20K, A2-6-20S, CA2-6-20K, CA2-6-20S plus cables)
- PROBE BUDDY, an oxygen probe simulator & tester

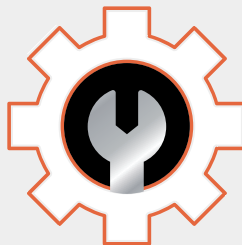

##### B. FLOW METER

- WAUKEE FLO-METER for atmospheres that include endothermic gas, natural gas, air, ammonia, purge N<sub>2</sub>, H<sub>2</sub>, methanol, and other gases.

##### C. FLOW CONTROLLER

- VALVE-TRONIC PLUS for atmospheres that include endothermic gas, natural gas, air, ammonia, purge N<sub>2</sub>, N<sub>2</sub>, and methanol

##### D. SERVICE PLAN

- 15-point inspection
- Helium leak detection
- NFPA analysis
- Environmental efficiency assessment
- Pyrometry survey
- 12 hours of remote support
- Up to 7% discount on all replacements & upgrades

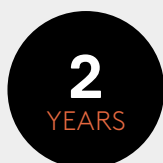

##### E. HaaS PRO

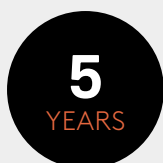

##### OUR ALL-INCLUSIVE SOLUTION:

- A. Probe
- B. Flow meter
- C. Flow controller
- D. Service plan
